(UM) Utilization Management is how we evaluate the medical necessity, appropriateness, and efficiency of the health care services you receive. UPMC Health Plan affirms that:

- We are committed to your receiving the best possible care, and we do not offer incentives to providers to restrict your care.
- UM decisions are based only on the appropriateness of care.
- No financial incentives are given to our UM advisers to decide in favor of less medical care being used.
- We will provide the process you can follow if you would like a reconsideration of the decision.

For more information about our UM program, you can call a Health Care Concierge or visit **upmchealthplan.com/medicare/members/coverage-criteria**.

Prescription Drug Costs

Your out-of-pocket drug costs (copays, coinsurance, and deductibles) change as you move through the Part D prescription drug stages. Your costs can also depend on your specific UPMC *for Life* plan, the pharmacy you use, and the tier of your drug. Learn more about each coverage stage, what's changing, and UPMC *for Life* prescription drug costs below.

Part D deductible stage
Your plan does not have a deductible when you fill Tier 1 and 2 prescriptions. In 2027, many plans have a deductible when filling prescriptions on Tier 3, Tier 4, and Tier 5. For these tiers, you pay the full cost of each prescription until you reach your plan's deductible amount. The deductible doesn't apply to covered insulin products.
The UPMC *for Life* HMO Rx Choice deductible for Tier 3, Tier 4, and Tier 5 is $700.

Initial coverage stage
Your plan pays for its share of your covered prescriptions during this stage. You will pay a copay or coinsurance, depending on your medication's drug tier. For drugs on tiers with a coinsurance, your share of the cost may change throughout the year depending on the drug and where you fill your prescription. Once your total yearly out-of-pocket drug costs reach $2,400, you will move to the catastrophic coverage stage. **See the chart below for copay information and costs by plan.**

	30-Day Supply		100-Day Supply			
	Retail		Retail		Mail-Order	
Tier	**Preferred Pharmacy**	**Standard Pharmacy**	**Preferred Pharmacy**	**Standard Pharmacy**	**Preferred Pharmacy**	**Standard Pharmacy**
Tier 1 Preferred Generic	$0	$15	$0	$30	$0	$30
Tier 2 Generic	$0	$20	$0	$40	$0	$40
Tier 3 Preferred Brand	UPMC *for Life* HMO Rx Choice: 25%					
Tier 4 Non- Preferred	UPMC *for Life* HMO Rx Choice: 28%					
Tier 5 Specialty	UPMC *for Life* HMO Rx Choice: 25% (up to 30-day supply only)					

	30-Day Supply		100-Day Supply			
	Retail		Retail		Mail-Order	
Tier	Preferred Pharmacy	Standard Pharmacy	Preferred Pharmacy	Standard Pharmacy	Preferred Pharmacy	Standard Pharmacy
Covered Insulins	$35	$35	$96.25	$105	$87.50	$105

If you reside in a long-term care facility, you pay the same copay as you would at a preferred retail pharmacy for a 31-day supply. The costs for Part D prescriptions may be different based on the day supply and the type of pharmacy where the drug is received.

Catastrophic coverage stage

Your total yearly drug costs will be capped at $2,400. Once the costs paid by you and your plan reach $2,400, you will move into the catastrophic coverage stage. In this stage, you won't pay anything for your covered drugs. You will stay in this stage through the end of the year.
